

# Melaton, Moonstorm

Knock it down  
Cause it's all you ever see  
In this life  
Knock it down  
Cause there's more that you can be  
In this life

And you lay your face upon the moon  
You watch the river run right through  
And you say your name like it was true

Knock it down  
Cause it's all you ever see  
In this life

Knock it down  
Cause there's more that you can be  
In this life

Ooooh  
And you lay your face upon the moon  
You watch the river run right through me now  
And you say your name like it was true  
And you keep holding on  
Holding on, ooh...

Knock it down  
Cause there's more that you can see  
In this life

Knock it down  
Cause that's all you ever see  
You'll ever see...

And you lay your face upon the moon  
You watch the river run  
You say your name like it was true  
And you keep holding on  
Holding on...
