

# Melechesh, Purifier Of The Stars

(Music: Ashmedi / Lyrics: Ashmedi)

Breathe the universe  
Rites of Annunaki's time  
Bringing the essence, bring  
The origin of Man's being  
Forever your 'cosm is mine  
Its mass in my crystal ball  
Now heed your fathers are here  
We claim the sons you bear

The Purifier the claimer will return

Now heed your fathers are here  
We claim the sons you bear  
Now heed your sons are here  
We claim the fathers you bear

The Purifier, the claimer will return  
Fulfilling his destined way

(Lead: Andy La Rocque)  
(Lead: Ashmedi)

From the planet unknown and apart  
Spawned the seed of earth's bond  
New lands for our slaves  
Purifier of the stars has made his way

Breathe the universe  
Rites of Annunaki's time  
Forever your cosm is mine  
It's mass in my crystal ball  
Bringing the essence, bring  
The origin of Man's being  
The ritual of the scorpion's sting  
Will take you on my wings

Breathe the universe  
Rites of Annunaki's time  
Bringing the essence, bring  
The origin of Man's being  
Forever your cosm is mine  
Its mass in my crystal ball  
Now heed your fathers are here  
We claim the sons you bear
