

Meligrove Band, Planets Conspire

I, I've never seen the moon so bright
All my life I never noticed the moment
Only in godsent

I, until now I've never tried
All my life I never noticed the timing
Oh where have I been

Ohhhh
All alone can you top me up there
Tryin' to make me more aware
But i was in the heat like a fool
Too busy keepin' cool
But that's when I met you and my life changed
I have opened my eyes, now I see things
Oh oh ohohhhohhhhh

When you find it, hold it tight
Give it water and sunlight
If you keep the love unkept
You'll turn around when nothing's left

Ohhh
All alone can you top me up there
Tryin' to make me more aware
But I was in the heat like a fool
Much too busy keepin' cool
But that's when I met you and my life changed
I have opened my eyes, now my heart sings
Oh oh ohohhhohhhhh

But that's when I met you and my life changed
I have opened my eyes, now I see things
Oh oh ohohhhohhhhh
