

Melissa Dori Dye, Angel Baby

angel, angel baby
never leave me
angel you're worlds away
angel you're worlds away

it's the world around me
it's been dark without you
when you're wrapped around me i feel light from heaven
i am burning up, hell yeah love you angel
i could live it up you and me

let's not ever go back
there is nothing in the past

i'm sure i must be dreaming
you love me
thought about everything and i love you
i wanna feel you screaming you want me
just give me every reason to love you

you're worlds away angel

baby i decided that the world around us couldn't come between us
if they begged or killed us

when you're wrapped around me i'm happy

it's the world around me it's been dark without you
when you're wrapped around me i feel light from heaven
it's the world around me it's been dark without you
when you're wrapped around me i feel light from heaven

want me, want you
so sad without you
want you, so sad, so sad

i'm sure i must be dreaming
you love me
thought about everything and i love you
i wanna feel you screaming you want me
just give me every reason to love you

angel, angel
love you baby
never leave me
angel you're worlds away
you're worlds away
