

Melissa Dori Dye, Never Hear It From Me

All alone thinking of you in the night
I almost called to tell you but I couldn't get it right
Here I am asking myself why
Why I've wasted so much time
When all along it shouldn't been you

You know you'll never hear it from me
But in my heart the truth will be
I said I'd never fall in love with a friend
Here I go again

All alone wishing you were mine
Trying to find a reason to make it alright
Well you reached out to touch me
Tell me why
Was it just that easy
Don't say I'm say I'm right
Now you've confused me and I'm thinking of you
What am I gonna do

You know you'll never hear it from me

Look in my eyes and you will see
I said I'd never fall in love with a friend
And here I go again

You know you'll never hear it from me
Look in my eyes and you will see
I said I'd never fall in love with a friend

You know you'll never hear it from me
Look in my eyes and you will see
I said I'd never fall in love with a friend
And here I go again

All alone thinking of you in the night
I almost called to tell you but I couldn't get it right
Here I am asking myself why
