

Melissa Dori Dye, Night And Day

far away i dream of a place you can run to
a life so true
a future for you
a place to belong to
you will have this dream
sometimes i cry
i pray for your life
don't know what would happen if they leave you to die
i'm not that far i'll always know where you are
never be ashamed because you will have the stars
precious you are
night and day i pray you're safe
i'll find a way to say peace is yours night and day

here today i know of a way
from this day on i will be watching my ways
no more mixed lives, no more searching inside
i forget myself when i see tears in your eyes
don't want you to relive my life
night and day i pray you're safe
i'll find a way to say peace is yours night and day
night and day i pray you're safe
i'll find a way to say peace is yours night and day
