

# Melissa Etheridge, Put Me Out Of My Misery

Someone said girl be careful of what you do  
You've only got one heart and it wouldn't be good for you  
To tear it all apart  
Just like a snake bite you entered my veins  
Traveled my body and flowed to my brain  
Now I'm slowly dying, dying for your touch  
I'm cold and I'm shaking  
I need you too much  
Yes, I need you too much  
Tonight put me out of my misery  
Tonight drive me out of my mind  
Tonight put me out of my misery  
Tonight make it cruel to be kind  
Drive me out of my, out of my mind  
So now I wait  
A message on your door  
The ringing of your phone  
Lying on the floor  
Breathing all alone  
Just like a movie the hours go by  
Dragging me under the day turns to night  
Now fantasy's raging and I need to score  
I'm hooked on you and I keep begging for more  
Yes, I'm begging for more  
Tonight put me out of my misery  
Tonight drive me out of my mind  
Tonight put me out of my misery  
Tonight make it cruel to be kind  
Drive me out of my, out of my mind  
Oh oh oh yeah  
Someone said girl be careful of what you do  
You've only got one heart and it wouldn't be good for you  
To tear it all apart  
No oh so  
Tonight put me out of my misery  
Tonight drive me out of my mind  
Tonight put me out of my misery  
Tonight baby make it cruel to be kind  
Yeah put me out of my misery  
Baby drive me out of my, out of my mind
