

Mellowdrone, Bitelip

I bite my lip too much but it's okay
cause i had you once
you disappeared on me but i'm not angry
i miss you
i miss you
i take too many pills but it's okay
cause i had you once
one day i won't wake up
well i'll be happy
you'll miss me
you'll miss me
nothing left to
complain about
no more drinking
no more going out
no more violence
no more bravery
no more intercourse
no more easy
just a hand shake
from me to you
scaly skin disease
has got inside of you
no more intercourse
no more easy
no more easy
