

# Mellowdrone, No More Options

Please please please don't let us down  
it's your turn to take it in the mouth  
i can see it  
you're not angry  
what's the difference?  
it's all been done  
i'll never sound like him  
i'll never sound like him

so soon for me  
no, i can't believe it more than you

another photograph for me  
it's what i need to get me by today  
i once was lost but now it's found  
so i figure my head's once touched the ground  
so nicely blind, so nicely blind for me

so soon for me  
no, i can't believe it more than you
