

Mellowdrone, Orange Marmalade

Tell me that you love me lady one more time
One more time slowly
Til then I will float in silence gingerly
Consuming energy

Maybe you could stay, just one more little day
This time it would be nice if you could fight back
Maybe you could stay, just one more little day
This time it would be nice if you could fight back

Give me one good reason baby why I'd leave
Why I'd leave you here
Til then I will float in silence gingerly
Consuming energy

Oh... did it again
Oh... whose gonna clean this up?
Please excuse me while I blow into a million pieces

Maybe you could stay, just one more little day
This time it would be nice if you could fight back
Maybe you could stay, just one more little day
This time it would be nice if you could fight back
