

Melodifestivalen, Autolove - Bulletproof Heart

I'm gonna get myself a bulletproof heart
Covered in armour, you can't take it apart
Your love found a rebound

I'm gonna get myself a bulletproof heart
Covered in armour, you can't take it apart
My heartbeat in concrete

Can't function without a shield
Too battered and bruised
You made love a battlefield
This one I won't lose

Cause you come to me with sanctity
Like the devil in disguise
Didn't see, you should, could not, confused
Couldn't our love's demise

I'm gonna get myself a bulletproof heart
Covered in armour, you can't take it apart
Your love found a rebound

I'm gonna get myself a bulletproof heart
Covered in armour, you can't take it apart
My heartbeat in concrete

No more, my defences down
Keeping out of your zone
No chills when you come around
Feeling safer alone

Cause you made me feel, I could never heal
When you hurt me time after time
To make you disarm, keeping safe from harm
Gotta change that whole design

I'm gonna get myself a bulletproof heart
Covered in armour, you can't take it apart
Your love found a rebound

I'm gonna get myself a bulletproof heart
Covered in armour, you can't take it apart
My heartbeat in concrete
