

# Melodifestivalen, Barbados - Bye bye

You make me feel like a UFO  
This time I've had it I will take no more  
I'm better off alone out of this war-zone  
We were a match made in heaven above  
But now you can't see the sun for the clouds  
Well I have heard it all and now I'm getting bored

I know watcha going to say  
But hey now  
Let's get it straight

Who's gonna turn you on when I'm gone  
Who's gonna start you up when you stop  
When I'm not longer there  
I've had enough I'm out of here  
Who's gonna wear your ring, poor thing  
Who's gonna fill the space in my place  
Cause I am on my way, not a single day to late  
Bye bye  
Bye bye

The same story here we go again  
I guess I owe it every now and then  
Well just because I am only human  
Now let me out of this wicked game  
This UFO is turning home again  
Cause I have heard it all and I am getting bored

I know watcha going to say  
But hey now  
Let's get it straight

Who's gonna turn you on when I'm gone  
Who's gonna start you up when you stop  
When I'm not longer there  
I've had enough I'm out of here  
Who's gonna wear your ring, poor thing  
Who's gonna fill the space in my place  
Cause I am on my way, not a single day to late  
Bye bye
