

# Melodifestivalen, Bosson - Efharisto

You make me live  
I wanna say Efharisto

I wanna write you a song so you'll understand  
All that you see in my eyes and read in my hand  
Is what I honestly feel  
This time I know that it's for real  
And till I find the right way  
This is what I wanna say

Efharisto  
For all the love you give  
And the way you make me live  
I'll say the only word I know  
Efharisto  
I thank the stars above  
For this everlasting love  
I wanna say efharisto

You are to me like the sun so warm in the sky  
You are like sweet summer rain as soft as a sigh  
You're like the ocean so deep  
Rocking me gently in my sleep  
Don't know where I'm gonna start  
So I'll just say from the heart

Efharisto  
For all the love you give  
And the way you make me live  
I'll say the only word I know  
Efharisto  
I thank the stars above  
For this everlasting love  
I say from my heart for your love

Efharisto  
For all the love you give  
And the way you make me live  
I'll say the only word I know  
Efharisto  
I thank the stars above  
For this everlasting love  
I wanna say Efharisto
