

Melody., All Night Long

Can you handle this?
Are you fit for anything and everything that
Tonight is gonna bring you? Can you take it?
Are you strong enough?
Can you lift me up and take me to the place
That I know my body's craving... Till I get it

This burnin' hunger is controllin' me
This sound of thunder is where I want to be

Baby I... I can feel the fire burning deep inside
So let me love you all night long
To the wire, it's you that I desire
So let the rhythm flow...
And don't you... Don't you let me go

It's three... Where am I trippin'?
Is it me or does it feel like we are the
Only people breathing? Are we feelin'?
Think deep Underneath, we creep
Journeying into another land
It's a never ending story... Go before me

This burnin' hunger is controllin' me
This sound of thunder is where I want to be

Baby I... I can feel the fire burning deep inside
So let me love you all night long
To the wire, it's you that I desire
So let the rhythm flow...
And don't you... Don't you let me go

What you gonna do when it comes down to it?
Do it... Do it right
What you gonna do when it comes down to it?
Now I got you in the mood so tell me what you wanna do
I can see it in your eyes... You can't deny the truth

Baby I... I can feel the fire burning deep inside
So let me love you all night long
To the wire, it's you that I desire
So let the rhythm flow...
And don't you... Don't you let me go

Baby I... I can feel the fire burning deep inside
So let me love you all night long
To the wire, it's you that I desire
So let the rhythm flow...
And don't you... Don't you let me go
