

# Melody Club, Winterland

wide awake  
alone i ache  
it's nothing but a wasted day  
i'm wide awake

i let you go  
oh so slow  
it's just another heartache  
oh so slow

i've been walking through a winterland  
warm me with the touch of your hand  
you walked out on me yeah, you walked out on me  
and love isn't all that i want it to be  
you're walking away yeah, you're walking away  
slowly you turn now, you stop and say hey  
and the winter inside me is going to stay

time stands still  
with time to kill  
it's nothing but a wasted day  
time stands still
