

Melody Club, Would You Even Like It

she gets her kicks down Easy Lane
you rock & rollers are all the same
she smiled at me when I asked for her autograph
you make me blush and she starts to laugh

would you even like it
now the sun goes down on you along the way

I fell asleep along the way
and maybe we'll meet again some day
somehow things didn't work out the way we planned
like building skyscrapers in the sand
