

# Melody Fall, Drift and Go

Ready for tonight, Cars just got in line  
Warning up the engine  
Dead silence, then we start the race  
Thinking is lost on the street, run too fast for that  
But something's going wrong, red and blue light someone dropped a dime  
Please baby Run faster than Hell  
Time's running Time's running out  
Cops getting close and close again  
Time's running Time's running out  
My wheels are burning I'm so fast  
Time's running Time's running out  
Leaving them behind me nearly crash  
Now I've lost race mates, they got caught all right  
It seems like cops are fast, it doesn't matter they won't win tonight  
it's a one horse-race cause I'm still alive  
and my car doesn't lie, time to go full speed ahead tonight  
Please baby Run faster than Hell  
Time's running Time's running out  
Cops getting close and close again  
Time's running Time's running out  
My wheels are burning I'm so fast  
Time's running Time's running out  
Leaving them behind me nearly crash  
They're getting close and close  
They start shooting on  
Look at the access road, drift hard right and they crash the wall  
Please baby Run faster than Hell  
Time's running Time's running out  
Cops getting close and close again  
Time's running Time's running out  
My wheels are burning I'm so fast  
Time's running Time's running out  
Leaving them behind me nearly crash
