

Melody Fall, My Hope System

This time I won't Face Up to anything I Won't Forget it
It Feels so Hard Restart to Hope
I fear everything I know
My mind's raising hell with me and I'm gonna bite the dust soon
Cant find it there's no air to breath
Someday I'll get what I deserve and rope myself into carry on
Someday I'll find out what I am and shove my life down my own throat
Won't Waste My Time
I think I'll crash cause I'm wiped out for real
I won't this time
Feel under clouds anywhere I go
Won't Waste My Time
I think I'll crash cause I'm wiped out for real
I won't this time
Feel under clouds anywhere I go
Remember colours I remember sounds no more I'm lying
I hear confusing voices in me
I fear everything I know
My mind is burning memories I'm dreaming a way out of this wall
I've lost my choices I've lost my hope
Someday I'll get what I deserve and rope myself into carry on
Someday I'll find out what I am and shove my life down my own throat
Won't Waste My Time
I think I'll crash cause I'm wiped out for real
I won't this time
Feel under clouds anywhere I go
Won't Waste My Time
I think I'll crash cause I'm wiped out for real
I won't this time
Feel under clouds anywhere I go
Won't Waste My Time
I won't this time
Won't Waste My Time
I won't this time
Won't Waste My Time
I think I'll crash cause I'm wiped out for real
I won't this time
Feel under clouds anywhere I go
Won't Waste My Time
I think I'll crash cause I'm wiped out for real
I won't this time
Feel under clouds anywhere I go
Won't Waste My Time
