

# Melodyssey, Chemistry

Can't seem to understand  
The attraction makes you turn  
Stuperfied by her glare  
Just addicted to burns  
Can I, can I  
Feel your, can I

What I want you to say always begs me to stay  
I can't seem to get it right  
What I want you to say always begs me to stay  
To night I won't

Don't you give me that  
My time look at where we at  
My time is wasted cause you are useless  
Same nothing different to last time  
Your second skin, over now

Just addicted to burns
