

Melon Diesel, Is This It?

Nobody told me if I wanted to run
Too many people, all playing dumb
There's too much in politics
too much in greed
It's the only thing in this world that I see.
Cos when I grew up, I grew up
What did I see?
People fighting
What do they mean?

Nobody told me what the world had become
All of the countries are dealing with guns
It's all for the power heads.
destroy all the rest
Somebody told me it'd be for the best

But as I grew up. I grew up
Now what do I see?
People fighting
What do they mean?

Is this it? if this is it
Tell me why is this it?

This is it, is this it?
Tell me why is this it?

Is this it? if this is it
Tell me why is this it?

This is it, is this it?
Tell me why is this it?
