

MENTUM, Back Of Beyond

It's never gonna change the way we shine on
It's never gonna change the way we dance around
It's never gonna change the way the world is soon to crumble
It's never gonna change the way the earth keeps spinning around

I have no say when it comes to love
Only stammer and mumble
I have no faith in a god above
Watching over us all
The season changed, and I suppose
It's just the way the story goes
We're stuck in the back of beyond
We're stuck in the back of beyond

I have no say when it comes to love
Only stammer and mumble
I have no faith in a god above
Watching over us all
But you haven't changed, and I suppose
It's just the way our story goes
I know all this could end, whenever
Make moments linger on forever
We're stuck in the back of Beyond
We're stuck in the back of beyond
But we're stuck together
