

Memphis Slim, CAUGHT THE OLD COON AT LAST

Here I am, head over heel in love again

Here I am, head over heel in love again

Besides you, woman it was my mother and that's where love begins

I used to be a playboy, I played hard both night and day

I used to be a playboy and I played hard both night and day

But since I met Miss Lemon, she has made me change my ways

Oh yes woman, you've caught the old coon at last

Oh yes woman, you have caught the old coon at last

But I just hope I be happy with my future, as I am with my present and past

Yes, yes, yes, yes, yes

They caught the old coon at last

Now I love the life I'm livin', and I'm livin' the life I love

Now I love the life I'm livin', and I'm livin' the life I love

Woman I don't believe I could be any happier, if I was livin' in heaven above
