## Men At Work, Underground

Don't take the fire from your eyes Must make them feel the heat They build castles underground for the rich and politic elite

Keep all the home fires burning, Don't let the lights go out The streets are empty, and there's nobody about.

We'll be alright in the morning time yeah
We're doing fine, I'll see you on the night line

There's no need for you to fight, boys, Hang up all your guuns Find your mask and asbestos you can, get ready to run

Keep all the food lines moving, Don't come cry'n' for more The signs were there, you should have bought connections before

We'll be alright in the morning time Yeah We're doing fine, I'll see you on the nightline

It's such a big joke It's the talk of the town All the planets to whom I spoke Are trying their best to play it down

Don't take the fire from your eyes Must make them feel the heat But my head's unsteady I can't seem to keep my feet

Jump off the Eiffel Tower Just have a look around Move fast, in the tunnels of the underground Move fast, in the tunnels of the underground

Let's go!
