

Men Without Hats, Unsatisfaction

I'm never satisfied when the answers could be real
I may not know what's right but I know this can't be it
And once life and twice life three times you hung me from within
A one time two times thrice life you'd almost done me in
I may not know what's right but I know this can't be it
I'm never satisfied when the answers could be real
And once life and twice life three times you hung me from within
A one time two times thrice life you'd almost done me in
Life falls down I rest my case I die, I die, I die, I die!
And once life twice life and three times you hung me from within
A one time two times thrice life you'd almost done me in
A once life twice life and three times you hung me from within
A one time, two times, thrice life you'd almost done me in
Life falls down I rest my case I die, I die, I die, I die!
I'm never satisfied when the answers could be real
I may not know what's right but I know this can't be it
I'm never satisfied when the answers could be real
I may not know what's right but I know this can't be it
And once life twice life you hung me from within
A one time two times you'd almost done me in
And once life twice life you hung me from within
And one time, two times you'd almost done me in
You'd almost done me in
You'd almost done me in
You'd almost done me in
