

# Men, Women & Children, At Night We Like To Fight

You were on fire, 'till you sold your soul  
Just like a screaming choir, we can shake vertigo

Get your wolves  
I'll get mine  
And we'll take this outside

Let's get into a fight tonight  
Or just let it go  
Stick around cause this is televised  
And there is no after show

Watch me kiss the bride  
On the count of three  
Turn her upside, because it's all gravity

Keep your arms on your side  
And we'll let this slide

Let's get into a fight tonight  
Or just let it go  
Stick around cause this is televised  
And there is no after show

Yeah!  
Our wolves will always survive  
You'll never take us alive  
Our wolves, our wolves, our wolves, yeah  
Our wolves, our wolves, our wolves, yeah  
You'll never take us alive, woo!

Let's get into a fight tonight  
Or just let it go  
Stick around cause this is televised  
And there is no after show

Let's get into a fight tonight (tonight)  
Let's get into a fight tonight  
Let's get into a fight tonight (tonight)  
Let's get into a fight
