

# Men, Women & Children, Celebracion!

Do you feel that your body's shaking  
And that fire in your eyes  
Makes that look you give burn me up on the inside  
Yeah, you are the perfect breed  
Your eyes are the color green  
I won't let you down if you will let me in

Take take what you gave away  
While we set it off  
Turn on the lights, let's celebrate  
And come take what you gave away

Does it feel like the room is spinning  
You take too much time to think  
But just don't think that I will be here when you wake up

I'll catch you if  
I'll catch you quick  
If you will let me

Take take what you gave away  
While we set it off  
Turn on the lights, let's celebrate  
And come take what you gave away

Come with me, come with me  
But first put out that cigarette  
Dance with me, dance with me  
Just say the word my little pet

Come with me, come with me  
But first put out that cigarette  
Dance with me, dance with me  
Dance with me, dance with me  
Dance with me

Take take what you gave away  
While we set it off  
Turn on the lights, let's celebrate  
So shake shake what you came to shake  
Let's celebrate, let's celebrate  
Let's celebrate
