

Men, Women & Children, Messy

It's time you knew
That everybody leaves the lights on
So, why don't we hit the switch?
You better move
Better take off that attitude
But keep on those high heeled shoes

If you're getting up
Or you're getting down
Better wash your hands now

They say boys are messy
But you know girls just make a mess
So we don't care if we get dirty
We ain't here for cleanliness
(We're just making friends)

Go get the news (woo!)
Cause everybody wants to find out
Who's hitting heavy bricks
No time to lose
Better blow up some balloons
And put on a face or two, yeah

If you're getting up
Or you're getting down
Better wash your hands now

They say boys are messy
But you know girls just make a mess
So we don't care if we get dirty
We ain't here for cleanliness
(We're just making friends)

They say boys are messy
But you know girls just make a mess
So we don't care
so we don't care

If you're getting up
Or you're getting down
If you're getting up
You better wash your hands now

They say boys are messy
But you know girls just make a mess
So we don't care if we get dirty
We ain't here for cleanliness
(We're just making friends)
(We're just making friends)
