We're losing oxygen
It's no emergency
And now we're turning green
But that's just biology

We're losing oxygen
But you're just breathing fun
You're thinking surgery
Oh, will meet the urgency

We're losing oxygen
Come on, let's hit it hard
Let's leave a mark
and leave you
Come on, let's hit it hard
Let's leave a mark
and leave you (yellow, black and blue)
C-come, come on

Want to speed down your street
Knock down your favorite tree
Just cause we're stuck like thieves
In the middle of a shoot out
And you can see

We're losing oxygen
Come on, let's hit it hard
Let's leave a mark
and leave you
Come on, let's hit it hard
Let's leave a mark
and leave you (yellow, black and blue)
C-come, come on

Jenny is fighter pilot
but Jimmy's just a big old pussycat
Can't stop, can't stop, can't stop this
Because you're just a filthy rat

Come on, let's hit it hard
Let's leave a mark
and leave you
Come on, let's hit it hard
Let's leave a mark
and leave you (yellow, black and blue)
Come on, let's hit it hard
Let's leave a mark
and leave you
Come on, let's hit it hard
Let's leave a mark
and leave you
Because you're just a filthy rat

What you think about that?
