

# Mercenary, Music Non Stop

(Kent cover)

Everybody gets a second in the sun  
I have a feeling mine has just begun  
Music non stop when I close my eyes  
Clarity born from a compromise  
And you're almost like me

So why don't you dance to the music  
I hear inside my head  
Why don't you dance to the music  
It's the soundtrack for the end

I'm looking for a place to lie and wait  
I quit my job to find a perfect fate  
Music non stop when I close my eyes  
I need some time alone and I found a carpark that is home  
You're almost like me

So why don't you dance to the music  
I hear inside my head  
Why don't you dance to the music  
It's the soundtrack for the end

Everybody gets a second in the sun  
I have a feeling mine has just begun  
Music non stop when I close my eyes  
Clarity born from a compromise  
And you are almost like me

So why don't you dance to the music  
I hear inside my head  
Why don't you dance to the music  
It's the soundtrack for the end  
Why don't you dance to the music  
I hear inside my head  
Why don't you dance to the music  
It's the soundtrack for the end
