

# Mercury 4, Take It Back

Last nite we had an argument  
i said a few things that i never really ment  
sick of you buggin' me  
stop trying to mother me  
and i think i said your ass was getting big

im sorry i offended you  
so you can blame my stupid moputh  
'cos i do  
you are sensational  
clever and beautiful  
and your ass is looking mighty fine too

i never ment to make you cry  
you should appreciate the reasons why  
i gotta talk straight ans speak my mind  
i get myself in trouble every single time

## CHORUS

now i wish that i could take it back  
and travel to a place where i didnt say that  
rewind the conversation we just had  
i wish that i could take it all back  
and i wish that i could let it foll by  
so i keep my mouth shut  
insted of making you cry  
rewind the conversation we just had  
how i wish that i could take it all back

i hardly ever mean the things i say  
but you stressed me only yesterday  
quit telling me what to do  
'cos there ain't no reason to  
tell your mama just to mind her own biz

i'm sorry if i did offend  
baby you can blame my stupid mouth again  
'cos girl it's for definite i love  
your intelligence  
i'll even learn to love your mama too

i never ment to make you cry  
you should appreciate the reasons why  
i gotta talk straight ans speak my mind  
i get myself in trouble every single time

(REPEAT CHORUS)
