

Mercury Rev, Carwash Hair

want to ask but I just stare
can I run my hands through your car wash hair?
want to ask but I just stare
Can I run my hands through your carwash hair?

Drillin' a hole with my soul in the sand
diggin' for gold in the hole, in my bed
catchin a ride from a band I sat in the back of the van
they try to make me under stand
cuas if I'm not in a band don't mean I'm square
and if I am well then I don't care

Want to ask but I just stare
Can I run my hands through you car wash hair?

looking to the sky be confused
what will always be numbes one and three
nothin' to the sky be confused
what wil always be numbers one and three

want to ask but I just stare
can I run my hands through your carwash hair?
