

# Mercury Rev, My Love

Ain't it amazing when the seasons begin, to change,  
Someone behind the scenes just seems to pull some strings,  
I've struggled with an old angel all night long,  
An I thought it might be nice if we just talked till dawn

I never never gave you...enough  
I could've given you...my love

They say that mary magdelene, had it real bad  
She took her baby and she headed, off to france  
New situations don't present themselves, at first  
If I was her I don't know where or to who I'd've turned

I never left you with...too much  
I could've given you...my love

I hear of people living deep inside of, the earth  
They got their own sun and some claim they were here first  
I've struggled with an old angel all night long  
I thought it might be nice if you stayed here till dawn

I know I left you...alone too much  
But I know I need you here...my love  
I never thanked you...enough  
I could've given you...my love
