

# Mercury Rev, Nite and Fog

If God moves across the water  
Then the girl moves in other ways  
And I, losing sight of either  
Nite and Fog are my days  
I wanted only to be gentle  
But I gave her jealousy and rage  
Who knows exactly what I'm after?  
Nite and Fog are my days  
Wise men want fame  
Fools want gold  
Sailors want water  
But you want it all  
I tried to guide my love by starlight  
And soon my life became a maze  
Osiris and Orion were your favorites  
Nite and Fog are my days  
Vampires want darkness  
Monsters want souls  
Spiders want corners  
But you want it all  
She turns, half in to find me naked  
But I can see she wants me in other ways  
In the dark I've driven her to madness  
Nite and Fog are my days  
I hope you see your ship come in  
May it find you and never lose its way  
But I would make a poor captain  
Nite and Fog are my days  
Vampires want darkness  
Monsters want souls  
Spiders want corners  
But you want it all
