## Mercy Drive, See You Crawl

There are some things that I can't face There are some dreams that I can't chase There is nothing that I can't face There is no demon that I can't Face

There are people Who love to laugh at you See you fall See you crawl

Find the words they say Take your game away See you fall See you crawl

There are some who live above me And they think so little of me There is no one here above me It doesn't matter what you're thinking of me

There are people Who love to laugat you See you fall See you crawl

Find the words they say Take your game away See you fall See you crawl

There are people
Who love to laugh at you
See you fall
See you crawl

Find the words they say Take your game away See you fall See you crawl

See you crawl
