

Mercyful Fate, Burning The Cross

Riding out and summed up for they know their destination
Demons and witches and leaving less perceptions
Breaking religion by burning the cross
Breaking religion, burning the cross
Travelling in darkness, afraid of recognition
Evil ambitions, they're planning the destruction
Breaking religion by burning the cross
Breaking religion, burning the cross
Oh you gotta see them riding through the darkness and stay in the night
Unholy light
You gotta see them riding through the darkness and stay in the night
Unholy light
You gotta see them riding through the darkness and stay in the night
Yeah
Riding out and summed up for they know their destination
demons and witches and leaving less perceptions
Breaking religion by burning the cross
Breaking religion, burning the cross
Oh yeah they're burning the cross X2
Hear what they say, cause they do not go home. X2
Oh you gotta see them riding through the darkness and stay in the night
Unholy light
You gotta see them riding through the darkness and stay in the night
Unholy light
You gotta see them riding through the darkness and stay in the night
Yeah
Doomsday reflections
Above the clouds high in the sky
Doomsday infections
In their heads and in their minds
Doomsday reflections
Above the clouds high in the sky
Doomsday infections
In their heads and in their minds
You'll be burning the cross
