Mercyful Fate, Witche's Dance

Just like a demon's eye The moon was dancing on the blackened sky In my sleep nothing is real, dreaming... I'm dreaming

I can feel the shadows lurking I can feel them closing in I can hear their evil chanting This is not a dream for a king

Chorus:

Dancing the witche's dance... dancing the dance Dancing the witche's dance... dancing the dance

Cold hands, leading the way Through the woods and into the night Outside nothing is real, dreaming... I'm dreaming

I can see a fire burning Hooded shapes are all around I can see a throne of silver Thirteen we are in all

Chorus

Before the goat of mendes... we all must take our turn

Into the magic circle... where still the fire burns We're spinning round and round... until one takes a fall The fallen one will not return, the fallen one must burn

Solo: d

Just like a demon's eye The moon is dancing on the blackened sky I'm awake but nothing is real Dreaming... not dreaming

I can feel the shadows lurking I can feel them closing in I can hear their evil chanting This is not a dream at all

Chorus

I wish this was only a dream... a dream Within a dream

Solo: s/d

Dancing the witche's dance Dancing till death
