

MercyMe, A Million Miles Away

My imagination
Gets me all the time
No matter where I look You're all I'm seeing
You're my fascination
The very reason why
The reason why I'll never stop believing

And I'm so amazed that I
Am always on Your mind

I believe that You're always here with me
You're everywhere but still within my reach
Cause how could You save the day
If You're a million miles away

Who's to say what you can't see can't be found
There's evidence of Your presence all around
Cause how could You save the day
If You're a million miles away

You're my inspiration
You're always by my side
You are there as sure as I am breathing

Without hesitation
I am giving You my life
Cause I know You're never gonna leave me

It doesn't matter where I go
Cause this I know

I believe that You're always here with me
You're everywhere but still within my reach
Cause how could You save the day
If You're a million miles away

Who's to say what you can't see can't be found
There's evidence of Your presence all around
Cause how could You save the day
If You're a million miles away

What it all comes down to
Is being with You

I believe...
You're everywhere but still within my reach
Cause how could You save the day
If You're a million miles away

Who's to say what you can't see can't be found
There's evidence of Your presence all around
Cause how could You save the day
If You're a million miles away

Cause how could You save the day
If You're a million miles away
