MercyMe, A Million Miles Away

My imagination
Gets me all the time
No matter where I look You're all I'm seeing
You're my fascination
The very reason why
The reason why I'll never stop believing

And I'm so amazed that I Am always on Your mind

I believe that You're always here with me You're everywhere but still within my reach Cause how could You save the day If You're a million miles away

Who's to say what you can't see can't be found There's evidence of Your presence all around Cause how could You save the day If You're a million miles away

You're my inspiration You're always by my side You are there as sure as I am breathing

Without hesitation I am giving You my life Cause I know You're never gonna leave me

It doesn't matter where I go Cause this I know

I believe that You're always here with me You're everywhere but still within my reach Cause how could You save the day If You're a million miles away

Who's to say what you can't see can't be found There's evidence of Your presence all around Cause how could You save the day If You're a million miles away

What it all comes down to Is being with You

I believe...

You're everywhere but still within my reach Cause how could You save the day If You're a million miles away

Who's to say what you can't see can't be found There's evidence of Your presence all around Cause how could You save the day If You're a million miles away

Cause how could You save the day If You're a million miles away
