

# MercyMe, Just Like Your Father

Believe me when I say  
You look familiar in a certain way  
Believe me when I say  
I think I met you some other day  
There's something about you that I can see  
An it shines right through you an approaches me

Oh but now I know  
Oh yes I know  
You're just like your father  
You got your daddy's ways  
You walk so close to him picked up his traits  
You're just like your father  
Got your daddy's ways  
You're just like the man I met when I was saved  
You look like your father

You got your daddy's eyes  
You got your daddy's hands  
You got your daddy's smile  
You got your daddy's plans  
Before you speak, people know who you belong to  
It's how much it shows  
I can see the love of God from the start  
First thing I noticed he's got your heart

You have got something, a satisfying peace  
He dwells within you, so many long to see
