

# MercyMe, Last One Standing

Don't you count me  
Out cause I've fallen  
Out cause I've fallen down

I have landed  
Down on my knees oh  
Down on my knees again

This is where I'll find the strength to carry on  
This is where I'll find the strength to stand

I'm gonna be the last one standing  
fighting for something much bigger than me  
I'm gonna be the last one standing here

Clear the way for  
One who is worthy  
One who is worthy of

All my praise He's  
Already finished  
Already finished strong

I have seen the way this story's going to end  
I have seen who's already won

Bridge  
The last one standing wants it more  
Finding there's something worth fighting for  
We're gonna be the last one standing here
