

# Meredith Brooks, Company Man

I get him up for work  
Early in the morning  
While he's getting dressed  
I get the coffee going  
Another busy day  
Always in a hurry  
Not much time for us  
But he don't ever worry

He's a company man  
Company man  
Company man  
Company man

Deadlines to be met  
Schedules he must follow  
Conference is tonight  
Can't wait until tomorrow  
Need that new report  
First thing in the morning  
All work and no play  
Makes him awful boring

[Chorus:]  
He's a company man  
Company man (He don't understand)  
Company man  
Company man

Money, money, money  
All you're thinking of  
Money, money, money  
Well what about LOVE?

Company man...

I'm alone at home  
He's off in the city  
Need a little time  
Wonder why he can't see  
When I don't get love  
I just start being angry  
Working day and night  
What's he tryin' to hand me?  
Company man

[Repeat chorus]
