Meredith Brooks, Company Man

I get him up for work Early in the morning While he's getting dressed I get the coffee going Another busy day Always in a hurry Not much time for us But he don't ever worry

He's a company man Company man Company man Company man

Deadlines to be met Schedules he must follow Conference is tonight Can't wait until tomorrow Need that new report First thing in the morning All work and no play Makes him awful boring

[Chorus:] He's a company man Company man (He don't understand) Company man Company man

Money, money, money All you're thinking of Money, money, money Well what about LOVE?

Company man...

I'm alone at home He's off in the city Need a little time Wonder why he can't see When I don't get love I just start being angry Working day and night What's he tryin' to hand me? Company man

[Repeat chorus]
