

Meredith Brooks, Shout

It's 2:00 am and the neighbours are jumpin'
Mr Cray threatens to call the police
He jumps out of bed hits his head
Now he's got something to really shout about

Everybody's got their eye on the TV
Did Bill & Monica do it on the floor
The bombs go off and we're at war
Now we've got something to really get mad about

You got something to shout about baby
Yeah something to shout about
'Cuz if you're gonna shout
Do it good and loud
You need something to shout about
Yeah yeah shout it shout about

The stewardess doesn't have vegeterians
There's no leg room you've seen the movie twice
The plane goes down smashes on the ground
Now you've got something to really freak you out

You got something to shout about baby
Yeah something to shout about
'Cuz if you're gonna shout
Do it good and loud
You need something to shout about
Yeah yeah shout it shout about
Shout it about

So much wasted on unimportant things
Throw away the precious time
When there's so much that really needs changin'

You're driving home and the traffic isn't budgin'
Layin' on the horn, adding to the mess
Then Y2K shuts down L.A.
Now you got something to really figure out

You got something to shout about baby
Yeah something to shout about
'Cuz if you're gonna shout
Do it good and loud
Get something to shout about baby
You need something to shout about
'Cuz if you're gonna shout
Do it good and loud
Shout it out
Shout about
