

# Meredith Edwards, In Any Given Moment

It's a mystery  
How can it be so amazing  
I just wanna say  
I wasn't even looking for ya  
I wasn't hoping for the moon  
I guess it goes to show you everything can change

Chorus:  
In any given moment  
The world can spin around  
A lonely heart can feel love  
Lift it off the ground  
And everything you dreamed of  
Suddenly appears  
The future can unfold in an instant miracle  
In any given moment

Why does time move so slowly  
When you're lonely  
then raced wildly once you've found someone  
I have found no rules apply  
I'm waking up in the dead of night  
To say I've been brought back to live  
I am living proof

Repeat Chorus

I wasn't even looking for you  
I wasn't hoping for the moon  
I guess it only goes to show you  
Never underestimate  
The power of the hands of fate  
To show you what is true  
From right out of the blue

Repeat Chorus
