

# Merle Haggard, Falling For You

You bring me happiness and leave me loneliness  
My world is in distress cause I'm falling for you  
You look into my eyes and tell the sweetest lies  
You're a heartbreak in disguise and I'm falling for you  
Oh darling when you're near my world is happy dear  
But when you disappear I'm afraid that we're through  
I love in misery you're so unfair to me it's all a mystery why I'm falling for you  
[ strings ]  
Oh darling when you're near...
