GOOD TIMES

Now I won't think about tomorrow when the happy times are gone away
The good times can't last forever but the good times are here today
And I won't talk about believin' if you won't beg me to stay
I wanna live just for the moment and everything is going my way
And I won't think about tomorrow when the happy times are gone away
The good times can't last forever but the good times are here today
I'm not gonna save any money I'm gonna spend every dime I can
And I'll buy you everything with money can buy
While the good times are here at hand
And I won't think about tomorrow...
