

Merle Haggard, Let's Chase Each Other Around

Let's chase each other 'round the room tonight
Let's play the games we played on our wedding night
To lock and bolt the door is only right
Let's chase each other 'round the room tonight

Seems like lately people love to play with fire
The other games they play are just as bad
I'd rather stay at home and feel your burning lips
And play the kind of games that make me glad

Let's don't chase around and make each other weary
Let's keep all our love at home and out of sight
Let's leave everything like jealousy behind us
And let's chase each other 'round the room tonight
