

# Merle Haggard, You're The Only Girl In The Game

What a twisted game you're playin' with the highest takes of all  
Somewhere along the way the rules got change  
From this narrow ledge we're walkin' and there's no way you can fall  
Cause you're the only girl in the game  
You're the only winner there's no way you can lose  
And why I don't get out I can't explain  
Any one decision you would be good news cause you're the only girl in the game  
You're the only girl in the game he was not invited still he came  
There can only be one loser and I already feel the pain from the only girl in the game  
[ steel ]  
You're the only girl in the game...
