

Mesh, Can You Mend Hearts?

I'm out of faith
It's harder than the first time
I've seen a face
That's hollow on the inside
And it's not our aim
But we're all to blame
We'll never take that away
We'll never take it away

Can you mend hearts?
Can you fix lives?
Can you fill all the space
It's left me with inside?
Can you mend hearts?
Can you blunt knives?
Can you lose all the things
I wish I'd left behind?
Can you mend hearts?

I'm out of faith
And it won't return tomorrow
I've seen a place
So rotten through with sorrow
And they're not our tears
But we all share the fear
We'll never wipe them away
We'll never wipe them away

Can you mend hearts?
Can you fix lives?
Can you fill all the space
It's left me with inside?
Can you mend hearts?
Can you blunt knives?
Can you lose all the things
I wish I'd left behind?
Can you mend hearts?
