

# Mesh, People Like Me (With This Gun)

I can watch you from my room  
It's easy and free  
But I can lie in your footsteps  
And you'd never see me

Cause people like you  
Look right through me  
And still don't see the ground

But not today  
I'll make you concentrate  
And I don't need to make a sound

And I'll never be alone again  
I'll really make you see me differently

I can wait in the shadows  
Out here in the street  
I just want somebody to hear you  
When I force you to speak

And I'll never be alone again  
I'll really make you see me differently

I can die and who would ever know?  
I could wait but no one ever shows  
But I can make you look with this gun  
So maybe I'm not like everyone

I'm just an ordinary man  
With extraordinary hands  
I don't want to hear your answers  
I don't have the big plan

But focus on this  
And realize  
That you better be paying attention  
When I look in your eyes

And I'll never be alone again  
I'll really make you see me differently

I can die and who would ever know
